

Kundenbrief 06/2013

FSC® - Audit successfully completed!

Dear customers,
also this year we again have passed our FSC® audit successfully.

We are now FSC® certified since 2005 and thus ensure that the wood for our handles does not come from the exploitation of nature, but is produced in a responsible and sustainable environmental friendly way.

From this globally recognized eco-label benefit not only the forests, but also our customers - we are happy to advise you!

With best regards from Nuremberg

[Hans P. Maier GmbH](#)
